

of the parent farm. If a tract is divided, the tract yields for the resulting tracts shall be the same as the tract yield established for the tract before it was divided.

(2) *Single tract farm.* If a tract that is divided from a parent farm becomes a single tract farm, the tract yield shall become the preliminary farm yield and the farm yield for the farm shall be determined by multiplying the preliminary farm yield by the national yield factor for the current year.

(3) *Carryover tobacco.* Where carryover tobacco produced on a parent farm is marketed after the effective date of a reconstitution, such marketings shall be charged to the divided tracts in the same ratio as the marketing quotas are established for the divided tracts or as the county FSA committee determines that:

(i) The proceeds from such marketings are received by the owner or operator of one or more of the divided tracts, or

(ii) The owners of the divided tracts agree.

[55 FR 39914, Oct. 1, 1990, as amended at 56 FR 21441, May 9, 1991; 62 FR 15600, Apr. 2, 1997]

§ 723.209 Determination of acreage allotments, marketing quotas, yields for combined farms; and special tobacco combinations.

(a) *Burley tobacco.* The farm yield for a combined burley farm shall be the weighted average of the tract yields for the tracts being combined. The weighted average shall be the summation of the extensions of each respective tract's contribution percentage times the tract's yield.

(b) *Flue-cured tobacco.* Flue-cured farm acreage allotments, history acreages, and other basic data for combined farms shall be computed for the base period in accordance with part 718 of this chapter, except that the preliminary farm yield for a combined farm shall be the weighted average of the tract yields for the tracts that comprise the combination. The weighted average shall be the summation of the extensions of each respective tract's contribution percentage times the tract's yield. The farm yield for the combined farm shall be determined by multiplying the preliminary farm yield

for the combined farm by the national yield factor for the current year.

(c) *Special tobacco combinations.* Notwithstanding other provision of this title, the Deputy Administrator may, upon proper application and to the extent deemed consistent with other obligations, permit farms, with respect to tobacco allotments and tobacco quotas, to be considered combined for purposes of this part and part 1464 of this title only without being combined for other purposes. This allowance shall apply for tobacco of all kinds and types and with respect to all farms even if one or more of the farms to be combined is the subject of a production flexibility contract (PFC) executed in connection with the program operated under the provisions of 7 CFR part 1412. Such special, limited combinations must otherwise meet the requirements of 7 CFR part 718 for combinations, except the signature (consent) requirements of § 718.201(a)(2) of that part. The Deputy Administrator may set such consent requirements for special farm combinations under this section as the Deputy Administrator believes necessary or appropriate. Further, in any case in which one of the farms is a PFC farm, none of the land on any PFC farm that would have been used for the production of tobacco can be used for the production of a "PFC commodity" as defined in this section. Such permission shall be conditioned upon the agreement of all interested parties that land on the PFC allotment or quota farm that would have been used for the production of tobacco shall not be used for the production of any PFC commodity. In the event that such production nonetheless occurs, the special tobacco combination may be made void, retroactive to the date of original approval. Such curative action will likely result in a finding of excess tobacco plantings and sanctions and remedies, which would likely include liability for penalties and other sanctions for excess marketings of tobacco. The Deputy Administrator may set such other conditions on the combinations as needed or deemed appropriate to serve the goals of the tobacco program and the goals of the PFC. The term *PFC commodity* for purposes of this section means wheat,

§ 723.211

corn, grain sorghum, barley, oats, upland cotton, and rice.

[55 FR 39914, Oct. 1, 1990, as amended at 62 FR 15600, Apr. 2, 1997; 63 FR 9128, Feb. 24, 1998; 63 FR 26714, May 14, 1998]

§ 723.210 Corrections of errors and adjusting inequities in acreage allotments and marketing quotas for old farms.

(a)(1) *General.* The allotment or quota for a farm under a long-term land use program agreement shall be given the same consideration under this section as the allotment or quota for any other old farm. Notwithstanding the limitations contained in any other section of this part, the farm acreage allotment or marketing quota for each kind of tobacco established for an old farm may be increased to correct an error or adjust an inequity if the county FSA committee determines, with the approval of a representative of the State FSA committee, that the increase is necessary to establish an allotment or quota for such farm which is fair and equitable in relation to the allotment or quota for other old farms in the county in which the farm is located. Correction of errors shall be made out of that portion of the national reserve held at the national level.

(2) *Burley tobacco.* The reserve for adjusting inequities under this paragraph will be prorated to States based on the relationship of the total of the preliminary farm marketing quotas in each State to the national total of preliminary farm marketing quotas.

(3) *All kinds of tobacco except burley tobacco.* The reserve for adjusting inequities under this paragraph will be prorated to States based on the relationship of the total preliminary farm acreage allotments in each State to the national total of preliminary farm acreage allotments.

(b) *Basis for adjustment.* Increases to adjust inequities in acreage allotments or marketing quotas shall be made on the basis of the past farm acreage, yields, and farm acreage allotments of tobacco, making due allowances for failed acreage and acreage prevented from being planted because of a natural disaster as determined under part 718 of this chapter; land, labor, and equipment available for the production of

tobacco; crop rotation practices; and the soil and other physical factors affecting the production of tobacco. The total of all adjustments in old farm allotments or quotas under this paragraph shall not exceed the pounds apportioned to the county for such purpose.

(c)(1) *Burley tobacco.* Adjustments in a farm marketing quota under this paragraph shall become a part of the farm marketing quota.

(2) *Flue-cured tobacco.* Acreage apportioned to a farm under this section becomes a part of the farm acreage allotment. The farm marketing quota for such a farm shall be adjusted by multiplying the adjusted farm acreage allotment by the farm yield.

(3) *All other kinds of tobacco.* For all other kinds of tobacco, acreage approved for a farm under this section becomes a part of the farm acreage allotment.

(d) *Making certain adjustments on a common ownership unit basis.* Notwithstanding other provisions of this section, inequity adjustments may be allotted by common ownership unit rather than by farm when it is determined by the county FSA committee that the making of the allocation on that basis provides greater equity.

[55 FR 39914, Oct. 1, 1990, as amended at 63 FR 11582, Mar. 10, 1998]

§ 723.211 Allotments, quotas, and yields for farms acquired under right of eminent domain.

(a) *Determination of acreage allotments and marketing quotas.* The determination of farm acreage allotments and marketing quotas for farms acquired by an agency having the right of eminent domain, the transfer of such allotments or quotas to a pool, and re-allocation from the pool shall be administered as provided in part 718 of this chapter. Where all or a part of an allotment or quota is pooled, all or a proportionate part of the farm acreage allotment or marketing quota shall be pooled.

(b) *Closing dates.* The State FSA committee shall establish, in accordance with instructions issued by the Deputy Administrator, a final date for:

(1) *Release.* Releasing pooled farm acreage allotment or farm marketing
